1. General Information.

As used herein, the term "Subscriber" or "Subscribers" shall include any and all users, customers, subscribers, affiliates (including without limitation customers or non-customers to whom Just Host provides links or banners to promote the services or products of Just Host or any third party the services or products of which are offered by or obtained through or in connection with Just Host), resellers or others (i) who sign up for, use or obtain services or products from Just Host or from any third party services or products of which are offered by or obtained through or in connection with Just Host, or (ii) who visit the Web site of Just Host Web Hosting or of any such third party. As a provider of Internet/World Wide Web access, Web site hosting, and other Internet-related services, Just Host, ("Just Host") offers Subscribers, the means to acquire and disseminate a wealth of public, private, commercial, and non-commercial information. Just Host respects that the Internet provides a forum for free and open discussion and dissemination of information, however, when there are competing interests at issue, Just Host reserves the right to take certain preventative or corrective actions. In order to protect these competing interests, Just Host has developed this Acceptable Use Policy ("AUP"), which supplements and explains certain terms of each Subscriber's respective service agreement and is intended as a guide to the Subscriber's rights and obligations when utilizing Just Host's services. This AUP will be revised from time to time. A Subscriber's use of Just Host's services after changes to the AUP are posted on Just Host Web Hosting's Web site, under the Terms of Service section, will constitute the Subscriber's acceptance of any new or additional terms of the AUP that result from those changes. One important aspect of the Internet is that no one party owns or controls it. This fact accounts for much of the Internet's openness and value, but it also places a high premium on the judgment and responsibility of those who use the Internet, both in the information they acquire and in the information they disseminate to others. When Subscribers or others obtain information through the Internet, they must keep in mind that Just Host cannot and does not monitor, verify, warrant, or vouch for the accuracy and quality of the information that users may acquire. For this reason, the user must exercise his or her best judgment in relying on information obtained from the Internet, and also should be aware that some material posted to the Internet is sexually explicit or otherwise offensive. Because Just Host cannot monitor or censor the Internet, and will not attempt to do so, Just Host cannot and does not accept any responsibility for injury to its Subscribers or others that results from inaccurate, unsuitable, offensive, or illegal Internet communications. When Subscribers or others disseminate information through the Internet, they also must keep in mind that Just Host does not review, edit, censor, or take responsibility for any information its users, customers, subscribers or others may create. When Subscribers or others place information on the Internet, they have the same liability as other authors for copyright infringement, defamation, and other harmful speech. Also, because the information they create is carried over Just Host's network and may reach a large number of people, including both Subscribers and subscribers and non-subscribers of Just Host, Subscribers' postings to the Internet may affect others and may harm Just Host's goodwill, business reputation, and operations. For these reasons, Subscribers violate Just Host policy and the service agreement when they, their users, customers, subscribers, employees, affiliates, or subsidiaries engage in activities described herein.

2. Scope.

This AUP governs the usage of products and services of Just Host or of any third party which are subscribed to or obtained through Just Host (the "Services"). This AUP is incorporated by reference into each contract Just Host or any such third party enters into with a Subscriber for the use of such Services. Just Host may modify this AUP at any time without notice. In addition, this AUP is incorporated by reference into the Terms of Service applicable to the Web site of Just Host Web Hosting so that no person who utilizes the Web site or services of Just Host Web Hosting (regardless of whether that person is a Subscriber) may take any action utilizing the Web site of Just Host Web Hosting that a Subscriber would be prohibited to take utilizing the Services.

3. Purpose.

The purpose of this AUP is to enhance the quality of the Services and to protect Subscribers, and the Internet community as a whole, from illegal, irresponsible, or disruptive Internet activities. This AUP applies to each Subscriber. Each Subscriber should use common sense and good judgment in connection with the Services. Parents or guardians should always supervise minors in using the Internet. Parents and guardians should remain aware at all times of what is on the Internet and how the minors under their care are using the Services and the Internet.

4. Site Security and Updates.

Just Host uses sophisticated means of security in connection with the Services. Notwithstanding the foregoing, it is exclusively Subscriber's obligation to maintain and control passwords to Subscriber's web site(s), and Subscriber exclusively is responsible for all activities that occur in connection with Subscriber's user name, password, and registered domain name(s), as well as any and all scripts or programs added to the account by the Subscriber or authorized users. Subscriber agrees to immediately notify Just Host of any unauthorized uses of the Service or any other breaches of security. It is exclusively Subscriber's responsibility to update and secure any programs or scripts available via the cPanel interface. Subscriber's failure to update and secure any programs or scripts available via the cPanel interface may result in Just Host either updating the programs and scripts or suspending your account services until they are updated. Just Host will not be liable for any loss or damages of any kind, under any legal theory, caused by Subscriber's failure to comply with any of the foregoing security obligations or caused by any person to whom Subscriber grants access to Subscriber's Services, or due to any updates performed by Just Host pursuant to the terms of this section.
